

**PROCEEDINGS OF AICCIP ANNUAL GROUP MEETING: 2014-15**  
**BREEDING PANEL**  
**PAU, Ludhiana**

**Date: 8 April, 2014**

**Chairman: Dr. S. S. Siwach, Director of Research, CCSHAU, Hisar**

**Co-Chairman: Dr. R. K. Gumber, Asst. Director of Research, PAU, Ludhiana**

**Convener: Dr. S. Manickam, Principal Investigator, AICCIP,**

**Rapporteurs: Dr. Dharminder Pathak, PAU, Ludhiana &  
Dr. Naresh Kumar, PAU, Ludhiana**

The technical programme of the breeding trials, both national as well as zonal, were formulated for the year 2014-15 on 8 April, 2014 in the breeding panel. The breeders are requested to submit two packets of seeds (in case of varieties) in addition to the number of locations finalized in the panel for submitting to the Director, CICR, Nagpur and to NBPGR for long term storage of elite breeding materials.

Last date for submission of seeds at CICR, Coimbatore: 22-04-2014 before 4 PM

**Issue of coded seeds: Will be informed shortly once coding is completed**

**Private R & D** – Please pay the testing fee (@ Rs. 60,000 + 7416/- Service Tax per entry at national level) in the form of **Demand Draft drawn from any Nationalized Bank** drawn in favour of **Project Coordinator (Cotton Improvement) & Head** payable at Coimbatore while submitting the seeds. No entry shall be entertained without the submission of testing fee and R & D recognition by DST. The companies which have not updated the R & D recognition shall update and submit a copy at the time of submitting the seed without which the entry shall not be included in the trial.

**GENERAL POINTS TO BE NOTED**

- ❖ The seed sponsored for breeding trials should be acid delinted and without any seed treatment and packed individually as indicated in the concerned trials. Fuzzy seeds and seeds treated with any coloured chemicals will be out rightly rejected during coding.
- ❖ **Each packet of seed must be securely packed and have name of the entry, trial name, quantity of seeds etc.**
- ❖ The senior scientists of the concerned state are requested to send the local check varieties / hybrids of those trials being conducted in the state / zone (including private R & D trials) without fail. **All the check varieties / hybrids should be packed separately and legibly labeled mentioning the name of the trial. The check seeds should not be mixed with the entry seeds.**
- ❖ The trials should be conducted strictly as per the technical programme **and no other entry should be included** in the trial (including the check varieties).
- ❖ All the trials should have at least one border row.
- ❖ The seeds harvested in both varieties and hybrids are to be sent to the Director for analyzing seed oil content.
- ❖ All the data sheets should have Name of the agency conducting trial, location of the trial (and not the location of the company) and the name of the trial.
- ❖ All those who are conducting the breeding trials are requested to furnish both the mean data as well as the replicated data analyzed statistically. The mean data is to be submitted as per the model data sheet given below as **Excel sheet and not as Word file.**

|        | CV %  |             |            |         |         |                 |          |     |            |         |                    |

#Code numbers in ascending order; n=number of coded entries

- ❖ The data should be submitted separately in different Excel sheets for each trial, and the data of different trials are not to be combined in a single sheet.
- ❖ The incomplete and insufficient data will not be included in report preparation, and shall be reported to the higher officials for non compliance.
- ❖ **The lint samples pooled over replications should be prepared for all the entries from the first picked kapas**, cleaned neatly and labeled properly (mentioning the name of the agency conducting the trial, location of the trial, and code number in each packet of the lint sample) and sent to concerned CIRCOT centre (**National trials - CIRCOT unit at Nagpur, North Zone Trials – CIRCOT unit at Sirsa; Central Zone trials – CIRCOT Unit at Surat and South Zone – CIRCOT unit at Coimbatore**) for fibre quality evaluation in time (**on or before 30-12-2014**).
- ❖ The copy of the covering letter of lint sample submitted to CIRCOT must be communicated to the Principal Investigator (Plant Breeding) and to the Project Coordinator.
- ❖ **Kindly note that the last date for the receipt of the compiled data is 15-01-2015 (for north zone locations), 31-01-2015 (for central zone locations) and 15-02-2015 (for south zone locations). Data (both hard copy as well as soft copy) received after the due date will not be included in the report.**
- ❖ All are requested to visit the website of CICR / AICCIP at [www.cicr.org.in](http://www.cicr.org.in) for any information, announcement etc. No communication in any respect will be sent individually.
- ❖ **All the breeders are requested to part 40g seed of varieties and 20 g of hybrids for Pathology / entomology observations and no separate packets will be given to pathologists / entomologists.**
- ❖ Seeds received in less quantity than the prescribed quantity will not be included in the trial.
- ❖ All the breeders of the varieties / hybrids recommended for agronomic trials are requested to submit the required quantity of **seeds directly to the concerned agronomists (and not to Project Coordinator)** and to keep track with the agronomists for getting the data on agronomy trial and to submit the lint samples for micro-spinning to CIRCOT, Mumbai.
- ❖ Release Proposals of new varieties / hybrids complete in all respects including agronomy data, microspinning data, endorsement by competent authority and other necessary particulars as per the standard format (copy available at [www.cicr.org.in](http://www.cicr.org.in)) shall be submitted to the office of the Project Coordinator (Cotton) **as informed in the website**. Incomplete proposals will not be put up by the Project Coordinator to the committee. The package of practice, morphological characters as per DUS test of varieties and in case of hybrids including the parents are to be submitted along with the proposals. **The copy of the concerned page of Breeding trial, Pest and disease reaction data of AICCIP report and CIRCOT fibre quality data should be appended.**

**NATIONAL TRIALS**

**Data to be recorded in the randomly selected plants in the middle three row plot**

1. Seed cotton yield (kg/ha) at 130 DAS
2. Seed cotton yield (kg/ha) at 160 DAS
3. Total Seed cotton yield (kg/ha) at 160 DAS (1+2 above)
4. No. of bolls/m<sup>2</sup>
5. Plant height (cm)
6. Days to 1st boll bursting
7. No. of monopodia / plant

8. No. of sympodia / plant
9. Boll weight (g/boll)
10. Lint index (g)
11. Seed index (g)
12. Ginning outturn (%)
13. Fibre quality from pooled samples across the replication on 2.5% span length (mm), Micronaire and Bundle strength
14. Pest and disease incidence by entomologists / pathologists before spraying

**Data to be recorded in the randomly selected plants in the middle three row plot**

1. Seed cotton yield (kg/ha) at 130 DAS
2. Seed cotton yield (kg/ha) at 160 DAS
3. Total Seed cotton yield (kg/ha) at 160 DAS (1+2 above)
4. No. of bolls/m<sup>2</sup>
5. Plant height (cm)
6. Days to 1<sup>st</sup> boll bursting

7. No. of monopodia / plant
8. No. of sympodia / plant
9. Boll weight (g/boll)
10. Lint index (g)
11. Seed index (g)
12. Ginning outturn (%)
13. Fibre quality from pooled samples across the replication on 2.5% span length (mm), Micronaire and Bundle strength
14. Pest and disease incidence by entomologists / pathologists before spraying

### ENTRIES PROPOSED FOR AGRONOMY TRIAL

| Zone         | Species              | Variety / Hybrid | Irrigated / Rainfed | Entries                      |
|--------------|----------------------|------------------|---------------------|------------------------------|
| North Zone   | <i>G. hirsutum</i>   | Variety          | Irrigated           | F 2276, LH 2256              |
| Central Zone | <i>G. hirsutum</i>   | Variety          | Irrigated           | GISV 272, BS 39              |
|              |                      | Hybrid           | Irrigated           | RHH 0707                     |
|              | <i>G. barbadense</i> | Variety          | Irrigated           | GSB 21, DB 16                |
|              | <i>Hir x Barb</i>    | Hybrid           | Irrigated           | RHB 0711, RHB 0713           |
|              | <i>G. hirsutum</i>   | Variety          | Rainfed             | GBHV 170, SCS 793            |
|              |                      | Hybrid           | Rainfed             | GSHH 2646                    |
| South Zone   | <i>G. hirsutum</i>   | Variety          | Irrigated           | GISV 272                     |
|              |                      | Hybrid           | Irrigated           | TSHH0629, RHH 0707, PHCH 270 |
|              | <i>G. barbadense</i> | Variety          | Irrigated           | GSB 21, DB 16                |
|              | <i>G. hirsutum</i>   | Hybrid           | Rainfed             | RAHH 455, RAHH 1001          |

All the breeders of the above varieties / hybrids are requested to submit 1.0 kg (variety)/0.5 kg (hybrid) of **seeds directly to the concerned agronomists (and not to Project Coordinator)** and to keep track with the agronomists for getting the data on agronomy trial and to submit the lint samples to CIRCOT from concerned location. The agronomists are requested to submit **6 kg of lint samples for full scale spinning directly to Director, CIRCOT, Mumbai**. Further, agronomists are requested to send the agronomic trials data to the concerned breeder in addition to the Principal Investigator (Agronomy) in time to facilitate the breeder to submit the release proposals before due date.
